Philosophy

LET EVERYBODY DO,

WHAT HE CAN DO BEST.

Marcus Tullius Cicero

Otto A. Müller Recycling GmbH, a family owned company, bridges the gap between international manufacturers and final users of raw materials and by-products.

Whilst their product flow management incorporates the demands of customers, suppliers and efficient logistics, they always keep searching for new ecologic and economic recycling solutions.

• Energy from Biomass

Products	Solid by-products	Liquid by-products
Wood pellets	Seed residues	Glycerine
Wood briquettes	Lignin	GUMS
Straw pellets	Cocoa shells	Animal fat
Coffee pellets	Olive cake	Vinasse

• Commodities

Fertilizer	Miscellaneous	Specialities
Potassium chloride	Starch	Blue glass
Potassium sulfate	Lime stone	Spent-Pot-Lining
Re-Phosphate	Sulphuric acid	De-Icing salt

Credo

Correctness and trustworthiness are determinating our daily work in shipping and trading since 1889.

Bonded to tradition, obliged to progress and always on the move, we are fond of cooperations with our partners inside and outside of Germany in the search of new ideas for enviroment & energy.

With mutual trust we build long term relationships to our customers and suppliers. Our motto:

We commit to partnership.
